

TransportFactory

```
classDiagram
    class TransportFactory
    class ATFactory
    ATFactory --|> TransportFactory
```

A UML class diagram illustrating inheritance. The 'TransportFactory' class is represented by a white rectangle with a black border at the top. The 'ATFactory' class is represented by a gray rectangle with a black border at the bottom. A solid blue arrow points vertically from the top of the 'ATFactory' box to the bottom of the 'TransportFactory' box, indicating that 'ATFactory' inherits from 'TransportFactory'.

ATFactory
